

RDML Dwight D. Shepherd, USN (Ret.)

President and CEO

Dwight Shepherd Consulting and More, LLC

Thought leader, industry influencer, and senior cyber/IT operations executive offering 25+ years of senior leadership, command management, customer engagement, and strategy experience at the highest levels of industry and government within complex and diverse organizations. A proven leader with expertise and background across industry and military joint operations in cyberspace, command and control, information management.

Value to Organization

Leadership: Handpicked by the Operational Commander to lead the successful turnaround of failing NORAD/US NORTHCOM Cyberspace Operational directorate.

Resource Management: Provided critical oversight for the successful planning and execution of over 100 resource cyberspace programs with a \$25B budget across five years.

Operational Management: Led the Secretary of the Navy's staff in the flawless organizational planning and strategy execution for the Secretary's priorities spanning alternate fuel resources, acquisition excellence, and unmanned systems.

Strategic Planning: Lead architect in charge of building the J6 and Joint Cyber Center (JCC). Defined cyber roadmap eventually adopted by OSD and USSTRATCOM and aligned J6 cyberspace OPS with operational function leading unprecedented defensive capability.
